

# ProSafe-RS SIG Overview

Joe Pittman  
May 12, 2010

- To provide a means for more focused technical discussion around the ProSafe RS. Items such as;
  - product features,
  - product installation,
  - system maintenance capability (*on and off line*),
  - software applications.
- To hold more regularly scheduled meetings than the overall combined Yokogawa Users Group Mtg.
- Smaller meeting size for more focused discussion.
- Potential to hold regionally within North America, though initial meetings probably Houston based near Yokogawa office with equipment and personnel resources.

The ProSafe-RS User Group's mission is to promote interaction between ProSafe-RS users from different companies and disciplines to increase their level of expertise, to define market needs and to establish best practices for the total life cycle of ProSafe-RS Safety Instrumented Systems.

- Core Steering Team (*User & Yokogawa*) to guide ProSafe RS Special Interest Group's activities:
  - Meeting planning and agenda,
  - Acquiring papers and presentations for User Conference,
  - Provide feedback on future product development.
- By users:
  - Technical Presentations and Papers,
  - Sharing Lessons and Information,
  - Technical Feedback and Discussions.
- By Yokogawa:
  - Facilitate and Host ProSafe RS Special Interest Group,
  - Provide Product, Solutions and Updates,
  - Web site – host forum and discussion site.

- If your company would be interested in having a position on the steering team identify the specific person and contact Bruce Jensen & Joe Pittman. Responsibilities would include;
  - Attending 2 or 3 steering team meetings per year,
  - Work associated with items noted on previous slide,
- Form and core steering team, Yokogawa and User.
- Redefine Steering Team Positions.
- Develop a ProSafe RS Special Interest Group Steering Team Charter.
- Plan and execute next years ProSafe RS Special Interest Group Conference.
