

Diesel Generator Monitoring System

Turn-key Diesel Generator Monitoring Solutions

YOKOGAWA 

Diesel Generator Monitoring System

Replace aging monitoring systems with an all-Yokogawa solution that provides consistent, reliable test data and new insight into diesel generator start up and operation

Our custom systems monitor and archive:

- Starting speed
- Load operation
- Temperatures
- Cool down
- Oil pressure
- Fuel level and much more...

Yokogawa diesel generator systems provide:

- Extreme reliability
- Data accuracy
- Preventive maintenance and diagnostic information
- Interface to plant information systems

Yokogawa services:

- Design engineering
- Assembly
- Acceptance testing
- Documentation & training

At our Newnan, GA manufacturing facility, Yokogawa can design, fabricate, and test a ready-to-install diesel generator monitoring system. National Technical Systems can fully qualify to 1E standards and supply both Safety and Non-Safety Seismic supporting documentation.

To learn more, please contact your local Yokogawa representative, or email us at networksolutionspmk@us.yokogawa.com.
