

QR Code usage in YOKOGAWA products

YOKOGAWA has started to attach QR Code to products to enhance efficiency in plant maintenance work and increase accuracy in management of asset information.

By scanning the QR code on [our member site](#), you can quickly and accurately confirm the device data and access documents related to your product.

Even if the product does not have QR code, you can refer to it by entering the serial number displayed on the main name plate.

Typical information provided by scanning QR code

Serial Number	MS Code	Production Date	Order Availability
Manuals	Specifications	Drawings	Test Certificates

QR Code target products

YOKOGAWA started attachment of QR Code since March 2018 to Pressure Transmitters, Magnetic Flowmeters, Vortex Flowmeters, Coriolis Flowmeters, SMARTDAC+series, μ R series, DX series, etc.

Device Lifecycle Management Mobile Application

Device Lifecycle Management Mobile Application was discontinued June 24th, 2022.

QR code scan will be provided on our member site.
