

## QR Code usage in YOKOGAWA products

YOKOGAWA has started to attach QR Code to products to enhance efficiency in plant maintenance work and increase accuracy in management of asset information. By using Device Lifecycle Management mobile application to scan QR Code, you can quickly and accurately confirm the device specifications and access documents related to your product.

## Information provided by scanning QR code

Serial Number, General Specifications, User's manual, Drawing, Test Certificate and confirm Compatibility between failed device and spare device.

## QR Code target products

YOKOGAWA started attachment of QR Code to Pressure Transmitters, Magnetic Flowmeters, Vortex Flowmeters, SMARTDAC+series,  $\mu$ R series, DX series, etc. since March 2018.

## Device Lifecycle Management Mobile Application

Mobile Application for QR code scanning is available for free. In case of products without QR code, you can directly enter the serial number to search for specifications.

## Serial Number Search

Serial number search is also supported by [Partner Portal](#).
