

Supplement to Certificate of Compliance

Certificate: 2447837

Master Contract: 182892

*The products listed, including the latest revision described below,
are eligible to be marked in accordance with the referenced Certificate.*

Product Certification History

Project	Date	Description
70037798	2016-08-01	The change to the equipment is to include additional suffix codes into the series namely ISC40S-TG, TR and TS which differ mechanically, and changes to two of the drawings to update the electrical parameters and the table of permitted variants. The changes to these two drawings remove the need to collect the BOMs in the drawing list.
2447837	2012-04-17	Original Certification of Intrinsically safe Inductive Conductivity Sensor Model ISC40S series.
