Wunderlich-Malec joins Yokogawa's VigilantPlant® Solutions Partner Program

Yokogawa Corporation of America is pleased to announce that Wunderlich-Malec has joined its new VigilantPlant® Solutions Partner Program (VPS Partner Program). The VPS Partners program creates a collaborative partnership with select System Integrator's (SI's) to deliver Yokogawa's best in class industrial automation solutions to the process industry. As a trained integrator, Wunderlich-Malec will deliver Yokogawa's VigilantPlant Solutions portfolio including the industry's most reliable portfolio of DCS, PLC, RTU products, as well as, advanced application software solutions. Support comes from some of the leading industry experts, both domestic and from our group companies around the globe, which have executed and supplied over 20,000 control systems worldwide.

"Wunderlich-Malec has tremendous depth of resources to execute projects in a wide variety of industries. With over 200 engineers and offices around the US they apply their knowledge to solve problems in just about any complex industrial automation environment. We are happy to have them as part of our team" says Roger Van Nuis, GM Channels Sales.

About Wunderlich-Malec

Wunderlich-Malec has been providing customers with engineering, system integration and fabrication solutions for more than 30 years.

With offices throughout the US and nearly 200 professionals on their staff, they are one of the largest and most well established engineering companies in the United States, and have successfully finished numerous projects for our US clients in many parts of the world.

Wunderlich-Malec is confident that their qualified staff has the knowledge, experience and talent to create and deliver the solutions end users need for facility process and operation needs.

Wunderlich-Malec has a wealth of knowledge in microelectronics, mining, chemicals, oil & gas, government, general industry, healthcare, food & beverage, pulp & paper, commercial & retail, and entertainment & media plus electrical engineering, power distribution and generation and energy management. With such a broad range of industry experience, they are considered an industry leader at delivering complex engineering solutions to diverse vertical markets.
