

The Wellhead and beyond

Yokogawa total solutions include not only the well site, but also the injection, pipeline, compressor station, and the process plant facility. Our experience for these applications can be integrated to optimize the overall operation capability and maintainability.

Increase Production and Reduce Costs Safely

Why Yokogawa?

Yokogawa is being selected by the major energy companies as its automation partner because Yokogawa focuses on delivering highly reliable solutions – from instrumentation to RTU's, SCADA, DCS, Safety Systems and integrated digital oil and gas field applications. Yokogawa offers a wide variety of sensors and controllers that are used to monitor and operate the digital oil & gas field, as well as engineering and configuration services and support, providing a turnkey automation solution. Explore Yokogawa's products to increase the efficiency and environmental performance of your wells, and ensure their safe and stable operation.
