Suitable extinguishing media: Product is non-combustible. Extinguishing materials should therefore be selected according to surroundings.

Specific hazards arising from the chemical

Fires in the immediate vicinity may cause the development of dangerous vapors. Can be released in case of fire: Hydrogen chloride.

Protective equipment and precautions for firefighters:

In case of surrounding fires: Wear a self-contained breathing apparatus and chemical protective clothing.

6. Accidental release measures

Personal precautions: Avoid contact with the substance. Do not breathe vapors. Wear suitable protective clothing.
Environmental precautions:
Do not allow to penetrate into soil, waterbodies or drains.

Methods for clean-up:
Soak up with absorbent materials such as sand, siliceous earth, acid- or universal binder.
Store in special closed containers and dispose of according to ordinance. Wash spill area with plenty of water.
Render harmless: Treat with diluted sodium hydroxide solution, lime, lime sand or sodium carbonate.

7. Handling and storage

Handling
Advises on safe handling: Avoid contact with skin and eyes. Do not breathe vapors. Wear suitable protective clothing.

Storage
Requirements for storerooms and containers:
Keep containers tightly closed and at a temperature between 15 °C and 25 °C.
