MTP goes Industry

@ Merck Darmstadt, Germany

September 29, 2026 | 08:30 - 16:00 | English
Free of charge

As demand for modular production continues to grow in the pharmaceutical, life sciences, and chemical industries, this focused industry workshop brings together operators, equipment manufacturers, and technology providers to accelerate MTP adoption through practical implementation experiences and technical exchange.

Why attend

- Learn how MTP influences future investment and procurement decisions
- Gain practical implementation insights from operators, manufacturers, and engineering companies
- Discover hands-on approaches for specifying and deploying MTP-enabled equipment
- Exchange ideas with industry experts and peers

Highlights

- Operator and manufacturer case studies
- Parallel hands-on workshops
- Guided Merck laboratory tours
- Microfair exhibition area with on-site sponsors

Who should attend:

- Primary audience: OEMs
- PEA and package unit manufacturers
- MTP-related technology and solution providers

The following companies will exhibit at the microfair:

BECKHOFF

COPADATA

FESTO

MTP4Pharma®

RETEL®
driving the digitalization

semodia

SIEMENS

THE STRONGEST LINK.
