High Risk Work (HRW) License Information
<p>1. MSMBLIC001 License to operate a standard boiler (BS) is a prerequisite for MSMBLIC002 License to operate an advanced boiler (BA), however both training can be attended concurrently. There are no prerequisite for MSMBLIC001 (BA) or UEPOPL001A (TO). It would be an advantage if participants have had exposure to boiler/turbine plant and operation.</p> <p>2. The learning outcome of HRW courses is to meet the requirements for the knowledge component for the HRW licenses.</p> <p>3. The process for gaining a HRW licence is in 3 parts:</p> <ul style="list-style-type: none"> 3.1 Enrol in and successfully complete an appropriate training course. 3.2 Gain at least 60 hours experience on the job under the supervision of an appropriately licenced person. 3.3 Undertake a practical assessment on the job. This has a written portion which must be passed before the performance assessment can be undertaken. The written portion is a 3 hour exam. The performance portion takes about 3 hours. <p>4. HRW courses mentioned above will provide the theory component required for the issuing of a Statement of Attainment for Boiler Standard, Boiler Advanced and Turbine operation High Risk Work (HRW) licences (Theory only).</p> <p>They do not include the practical assessment or on-job-training components as required for gaining HRW licences.</p> <p>5. The assessment of this course will require the competent demonstration of the required knowledge and skills of the Units of Competency of the WorkSafe Australia Assessment instruments. Assessment will be carried out through formal classroom assessment and workbook completion.</p> <p>6. The prices below are for the theory training and theory assessment only and do not include participant travel and living costs whilst attending the course. Please contact Yokogawa to discuss your requirements for completion of HRW licensing practical assessment.</p> <p>(Additional cost applies for License assessment)</p> <p>7. Up-to-date information on the Units of Competency can be found on http://training.gov.au by searching for:</p> <div style="display: flex; justify-content: space-between;"> MSMBLIC001 License to operate a standard boiler UEPOPL001 Licence to operate a steam turbine </div>
