

General Specifications

Model PM4CPJT
Project ID License for PRM R4

GS 30B05A01-01EN

[Release 4]

■ GENERAL

Project ID License is mandatory license to manage software licenses of plant resource manager (PRM). Basically, one project ID license should be prepared for a project. However, for a large project, please prepare a project ID license per element to perform maintenance management for field devices.

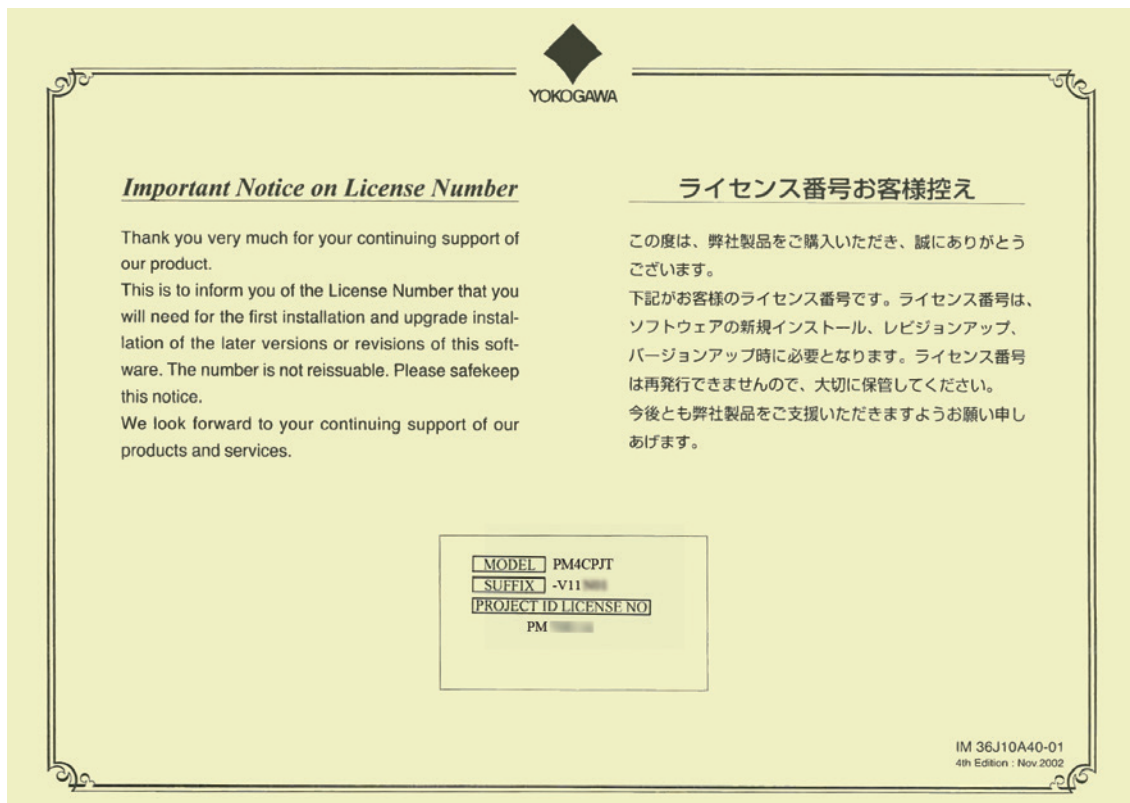

■ FUNCTION SPECIFICATIONS

● Project ID Number

Project ID number that starts with “PM” and follows with a six-digit numeral, will issued per project ID license. Each software license is issued and managed based on the project ID number.

● Supplied Medium

A license sheet on which the project ID number is described is issued. The issued project ID number is required when ordering, version-upgrading, and revision-upgrading of PRM. The license sheet should be treated carefully because it cannot be issued again.
