DAQSTATION

YOKOGAWA ◆
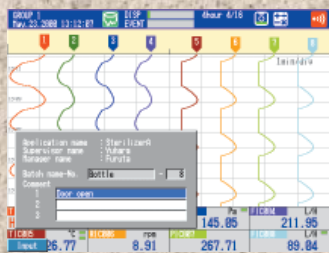

Paperless Data Acquisition Solution for Pharmaceutical and Bio-Tech Applications
DAQSTATION DX100/DX200

▶ Eliminate paper & pens! DAQSTATION saves critical data to digital storage media.
▶ **Batch Option** provides Electronic Signature and Data Security; complies with FDA requirement **21 CFR Part11**
▶ Optional time saving **Validation Package**
▶ Standard **Ethernet** Interface with **TCP/IP** and **FTP** protocol

Easy Batch Management

**DX200**

Security with Log in and Password Function

· Easy data management with Batch Number, Lot Number & Comments
· Long duration data storage with 100 MB ZIP
· PC software for data and batch information viewing. Also converts data to Excel for custom reports and printing.

DX100

Validation Document for IQ and OQ

1. Simple Operation-
· Start/Stop keys control data storage; navigation keys change displays modes.

2. Data Security & Accuracy-
· Proprietary binary data file protocol with software security check
· User ID and Password saved with data, prevents unauthorized operation.
· Digital data is far more accurate than a pen trace on paper.

3. Low Operating Cost-
· No maintenance- eliminate the cost of charts, pens and ribbon cassettes.
· Eliminate chart storage issues by using DX large capacity storage media.

4. Versatile Data Management & Viewing-
· Stand-alone operation; recording & historical viewing on the DX
· Network operation: centralized data management using standard Ethernet interface with FTP TCP/IP, Client, and Server modes
· Easy data viewing and conversion using PC software

Compliance with FDA Regulations
