DXA Date, Time, DST, and GMT Setup

Tech note TN12012
This tech note describes how to set the **Date**, **Time**, **DST** and the **GMT** settings on any of the DXA recorders.

It includes the DX1000, DX1000N, DX1000T, DX2000, and the DX2000T line of products.

If you need more details, please refer to your user manual.
1. DATE AND TIME SETUP

• **Date/Time**
  Press **MENU** (to switch to setting mode), and select the **Menu** tab > **Date/Time** > **Time Settings**

  ![Date/Time Settings screenshot]

  - **Time set**
    Enter the date and time and press **DISP/ENTER**.
2. DST SETUP

- DST
Press **MENU** (to switch to setting mode), and select the **Menu** tab > **Date/Time** >

**Daylight savings time**

- **Daylight savings time > Use/Not**
To set a daylight saving time period, select **Use**.

- **Daylight savings time > Start time**
Specify the date and time when daylight saving time starts.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Month</td>
<td>Specify the month.</td>
</tr>
<tr>
<td>Day order (week order)</td>
<td>Specify the week within the month. Specify [Last] for the last week in the month.</td>
</tr>
<tr>
<td>Day of the week</td>
<td>Specify the day of the week.</td>
</tr>
<tr>
<td>Hour of the day</td>
<td>Specify the hour using a value from 0 to 23.</td>
</tr>
</tbody>
</table>

- **Daylight savings time > End time**
Specify the date and time when daylight saving time ends. The settings here are the same as those for Start time.
3. GMT SETUP

Press **MENU** (to switch to setting mode), hold down **FUNC** for 3 s (to switch to basic setting mode), and select the **Menu tab > Time settings**

![Time settings](image)

- **Date & Time > Time zone**
  
  Set the time zone of the region in which the DX will be used in terms of the time difference from GMT. Specify a value in the range of $-1300$ to $1300$ (where the first two digits denote the hour and the last two digits denote the minute). A negative value indicates that the local time is behind the GMT.
  
  **Example:** The standard time in Japan is ahead of the GMT by 9 hours. In this case, enter “900.”
Thank you!
